## Internships

---

### Workshop Interns

Since we make most of our products and customs ourselves we have a vast workshop. This allows room for one intern at a time for a minimum period is 3 months, preferably longer.

You will be a part of the production crew, assisting them with the making of either standard products, customs of these products or projects they are working on. Besides this you can be involved in the development of new products and general support to the team and the studio.

#### You

are interested in the making of things  
are very practical and overall handy
